

INNA BAINS

Wellingborough, UK | +44 7935 165734 | innessyk@gmail.com | [LinkedIn Profile](#)

PERSONAL PROFILE

Level 6 BSc (Hons) Computing student at Arden University with hands-on experience in Java, SQL, Azure cloud design and user-centred UI development. Delivered OOP applications, relational MySQL databases, secure Azure architectures and interface prototypes through academic work and Bright Network programmes. Seeking a graduate or entry-level opportunity in the IT and technology sector to apply technical skills, analytical thinking and previous industry experience while continuing to grow professionally.

EDUCATION

BSc (Hons) Computing — Arden University, London

Sep 2022 – Present | Expected Graduation: 2026

Key Modules: Programming & Software Development; Data Analysis & Visualisation (92%); Human–Computer Interaction (81%); Systems Analysis & Design (90%); IT Project Management; Distributed & Cloud Computing (L6); Computing Project (L6).

Academic Projects:

- **AI Meal Planner (Final Project, in progress)** – Designing and implementing a web-based AI system providing nutrition guidance, sustainability scoring and personalised recommendations using user-centred design.
- **Azure Fleet Management Architecture** – Designed a scalable Azure cloud structure incorporating 10+ core resources (VNets/subnets, NSGs, VM Scale Sets, Bastion, WAF, PostgreSQL) supporting multi-region expansion and secure access layers.
- **Healthy Meal Planner (HCI)** – Created a high-fidelity UI with 15+ screens, applying Nielsen’s heuristics and Gestalt principles to improve clarity, navigation and user flow.
- **Java Virtual Pet Manager** – Built an OOP-based console system supporting 10+ user operations, using classes, file handling and input validation.
- **MySQL Marketplace Database** – Developed a 15-table normalised schema (3NF), EERD with inheritance, and implemented 5 stored procedures, 3 triggers, constraints and multi-table queries.

Previous Education

- **Law Degree** — Alecu Russo State University, Moldova (2002–2006).
- **Automated Systems in Rail Transport** — Railway Technical College, Moldova (1999–2002).
- **English Functional Skills Level 1 & 2** — Pearson, UK (2019–2021).

SKILLS

Technical Skills

Programming: Java (OOP), JavaScript (intermediate), HTML5, CSS3.

Databases: MySQL, complex SQL queries, JOINS, triggers, stored procedures, EER modelling, 3NF.

Cloud: Azure fundamentals, cloud architecture design, virtual networks, secure connectivity, load balancing, scalable compute, managed databases.

Data Analysis: Excel (PivotTables, dashboards, XLOOKUP, IF, COUNTIF), data

cleaning, Z-tests, descriptive statistics.

UI/UX: Wireframes, prototypes, usability heuristics, Gestalt principles.

Tools: VS Code, Visual Studio, MySQL Workbench, GitHub, Excel, draw.io, Wix.

Methods: PRINCE2 principles, Agile/Waterfall, UML, DFDs.

WORK EXPERIENCE

Process Controller — Bakkavor Ltd, London

Nov 2018 – Jun 2022

- Coordinated production workflows across 2 lines and 20+ staff, contributing to 93% OEE.
- Analysed digital performance data and daily KPIs to reduce delays and support operational decisions.
- Maintained compliance, quality checks and H&S standards for 2 production lines operating across 8–12 daily high-volume shifts.
- Strengthened leadership, communication and problem-solving skills in a fast-paced technical environment.

Owner & Operator — Women's Fashion Retail Business, Moldova

Jun 2013 – Oct 2016

- Managed 100+ product listings, customer queries and order fulfilment using a Wix e-commerce site.
- Increased customer engagement by 25% through targeted promotions, seasonal campaigns and product content.
- Administered stock control, product listings and full-cycle business operations for 100+ items, ensuring accurate inventory and smooth fulfilment.
- Developed digital marketing, web design, and customer service capabilities.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Couch to Coder 2025:** Advanced Course (Bright Network) – JavaScript, HTML, CSS and practical coding tasks.
- **IEUK 2025:** Technology & Engineering (Bright Network) – Software development, project work, technical problem-solving.
- **IEUK 2024:** Technology on Demand (Bright Network) – Cloud fundamentals, tech consulting simulations, group project tasks.

ADDITIONAL SKILLS

Communication • Teamwork • Leadership • Problem-Solving • Time Management • Analytical Thinking • Attention to Detail.

Languages: English (Fluent), Romanian (Native), Russian (Fluent).
